Date: 01/07/2021

Replaces: 06/04/2018

1. PRODUCT IDENTIFICATIONProduct identifier on label: **FULLTEC ULTRAZINC**

EPA Registration: Exempt

Common name: Foliar fertilizer

Chemical description: Mixed mineral fertilizer

Recommended use: See product label for full directions for use.

Restrictions for use: See product label for any potential use restrictions.

Guaranteed by:

Spraytec Fertilizers LLC

3219 99th St

Urbandale, IA 50322

(515) 252-7777. For product information or assistance

CNPJ: 06.287.157/0005-50 | I.E: 90.376.806.10

2. HAZARD IDENTIFICATION

Emergency Overview: Hazy beige liquid with a mild odor. This product does not meet the regulatory definition of a hazardous chemical. However, may cause skin, eye and respiratory irritation.

Potential Health Effects

Eyes: May cause mild but reversible eye irritation.

Skin: May cause mild but reversible skin irritation.

Inhalation: May cause minor irritation of the upper respiratory tract.

Ingestion: May cause minor irritation of digestive tract.

Preexisting conditions: None known

Chronic health effects: None known

Carcinogenicity

NTP: Not listed

IARC: Not listed

Potential environmental effects: Under high concentration, may contaminate waterways by pH reduction.

Physical and chemical hazards: Not flammable product. May react with incompatible materials (see section 10).

Signal word (OSHA): CAUTION

Hazard symbols:

Hazard statements: None required

Precautionary statements: Prevention: See section 8 for personal protective equipment.

Response: See section 4 for first aid information.

Storage: See section 7 for storage information.

Disposal: See section 13 for disposal information.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Formulation Type: Aqueous Solution

Composition: Phosphoric acid, urea, potassium chloride, copper sulfate, boric acid, zinc sulfate, manganese sulfate, sodium molybdate, nonionic surfactant, tensoactives, carboxylic acid, EDTA, amino acid, citric acid, and water.

Guaranteed Analysis: Nitrogen (N) - 1%

Available Phosphate (P₂O₅) - 5%

Soluble Potash (K₂O) - 3%

Sulfur (S) - 3.7%

Boron (B) - 0.1%

Copper (Cu) - 0.1%

Manganese (Mn) - 6%

Molybdenum (Mo) - 0.5%

Zinc (Zn) - 0.7%

Derived from: Urea, phosphoric acid, potassium chloride, copper sulfate, boric acid, copper sulfate, manganese sulfate, sodium molybdate, and zinc sulfate.

4. FIRST AID MEASURES

FULLTEC ULTRAZINC

Date: 01/07/2021

Replaces: 06/04/2018

Have the product container, label or Safety Data Sheet with you when calling Spraytec (1-800-889-5127), a poison control center or doctor, or going for treatment.

- Ingestion:** If swallowed: Call a poison control center or doctor immediately for treatment advice. Give water to the victim to dilute the material. Do not induce vomiting unless told to do so after calling to a poison control center or doctor. Do not give anything by mouth to an unconscious person.
- Eye contact:** If in eyes: Hold eye open and rinse slowly and gently with clean water for 15-20 minutes. Remove contact lenses after 5 minutes, if present, then continue rinsing eye. Seek medical attention if eye irritation persists.
- Skin contact:** If on skin or clothing: Take off contaminated clothing under a shower and wash it before re-using. Rinse skin with plenty of water and soap for 15-20 minutes. Seek medical attention if irritation occurs.
- Inhalation:** If inhaled: move person to fresh air. If person is not breathing, call 911 or ambulance, and assist breathing as needed. Seek medical attention for further treatment advice.
- Warning:** Do not give anything by mouth to an unconscious person.

5. FIRE FIGHTING MEASURES

- Suitable extinguishing media:** Not flammable. Use media suitable for combustibles involved in fire.
- Unsuitable extinguishing media:** Not flammable.
- Specific hazards:** During a fire, irritating and possibly toxic gases may be generated by thermal decomposition or combustion.
- Special protective equipment and precautions for firefighters:**
- Wear full protective clothing and self-contained breathing apparatus. Evacuate nonessential personnel from the area to prevent human exposure to fire, smoke, fumes, or products in combustion.

6. ACCIDENTAL RELEASE MEASURES

- Personal precautions:** Refer to section 8 for personal protective equipment to be worn during containment and clean-up of a spill involving this product.
- Environmental precautions:** Keep spilled product from entering sewers or waterways.
- Methods for containment:** Contain spilled product at its source. Contain the spill to prevent from spreading or contaminating soil or from entering sewage and drainage systems or any body of water.
- Methods for clean-up:** Cover contained spill with an inert absorbent material such as sand, vermiculite or other appropriate material. Vacuum, scoop or sweep up material and place in a container for disposal. Do not place spilled material back in original container.

7. HANDLING AND STORAGE

Precautions for safe handling: Ensure adequate ventilation during handling and use. Always use personal protective equipment (see section 8) while handling this material. Immediately clean up spills that occur during handling. Keep containers closed when not in use. Practice good hygiene after using this material, especially before eating, smoking, using the toilet, or applying cosmetics.

Precautions for safe storage: Store the material in a well ventilated, secured area out of reach of children and domestic animals. Do not store food, beverage, or tobacco products in the storage area. Keep product away from any source of heat or flame and out of direct sunlight at moderate temperatures. Protect packaging from physical damage. Store product in the original container

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Respiratory protection: For most conditions, no respiratory protection should be needed. If airborne concentration exceeds exposure limits, use a NIOSH approved air-purifying respirator with cartridges/canisters approved for organic vapors.

Eye protection: Chemical safety goggles are recommended to prevent eye contact. Contact lenses are not protective eye devices.

Skin protection: Chemically protective gloves, Long-sleeve shirt, long pants and shoes plus socks are recommended to prevent skin contact.

Work/Hygienic practices: Never eat, drink, nor use tobacco in work areas. Practice good hygiene after using this material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Liquid

Appearance: Hazy beige liquid

Odor: Low phosphoric odor

Odor threshold: Not available

Solubility in water (wt%): Emulsifiable

Vapor pressure (mm Hg): Not available

Vapor density (Air=1): Not available

pH: 3.0 (0.5% solution in deionized H₂O @77° F [25°C])

Melting point/freezing point: Not available

SDS – Safety Data Sheet

10. STABILITY AND REACTIVITY

Reactivity:	Not reactive
Chemical stability:	Stable under normal use and storage conditions.
Possibility of hazardous reactions:	None known
Conditions to avoid:	Store above 32°F (0°C). Avoid high temperatures and sun exposition.
Incompatible materials:	Strong bases, Strong acids, and Strong oxidizing agents.
Hazardous decomposition products:	None known.

11. TOXICOLOGICAL INFORMATION

Acute:	Not determined
Chronic toxicity:	No records
Potential health effects:	Eyes: May cause mild but reversible eye irritation. Skin: May cause mild but reversible skin irritation. Inhalation: May cause minor irritation of the upper respiratory tract. Ingestion: May cause minor irritation of digestive tract.

12. ECOLOGICAL INFORMATION

Ecotoxicity

Fish acute and prolonged toxicity:	Not determined
Aquatic invertebrate acute toxicity:	Not determined
Aquatic plant toxicity:	Not determined
Bird acute and prolonged toxicity:	Not determined
Honeybee toxicity:	Not determined

Environmental Effects

Mobility:	Water soluble
Persistence and degradability:	Not persistent in soil. Biodegradable.
Bioaccumulative potential:	Low bioaccumulation potential.

Other adverse effects: Avoid spilling product to waterways.

13. DISPOSAL CONSIDERATIONS

- Disposal: Do not reuse product container. Dispose of products containers, waste containers, and residues according to local, state, and federal health and environmental regulations.
- Container: Triple rinse and recycle the container or dispose of in accordance with local, state and federal health and environmental regulations.

14. TRANSPORT INFORMATION

International Regulations

- DOT (ground): This product is not regulated by the U.S. department of transportation as a hazardous material for ground shipment.
- Water transport (Sea): IMGD – International maritime dangerous goods code.
- Air transport (airplane): IATA
- Comments
- Proper shipping name: Mixed mineral fertilizer
- Hazard class: Not determined
- Identification number: Not determined
- Packing group: Not determined
- Hazardous substance: No

15. REGULATORY INFORMATION

This product is not regulated by the U.S. department of transportation as a hazardous material.

Risks and safety information can be found on Label.

16. OTHER INFORMATION

The information presented herein is based on available data from reliable sources and is correct to the best of SPRAYTEC FERTILIZERS Knowledge. SPRAYTEC FERTILIZERS LLC makes no warranty, express nor implied, regarding the accuracy of the data or the results obtained from the use of this product.
